

The Gibsons

I truly believe when God saves one's soul he puts a special calling upon their lives. I don't ever remember a time in my life when I was not totally surrounded by gospel music. Nearly everyone in my family plays an instrument or sings harmony, and it came as no surprise that I fell in love with the greatest music in the world at an early age. After learning to play guitar and a few other instruments God began to impress upon my heart to start writing songs. Although I have been singing and writing songs for a few years now, I've never lost that desire to share the gospel through good old fashioned harmony. Our group got its start as a result of Mike Gibson, Terry Collins and Greta Gibson Brown being part of the youth choir at Elm Springs Baptist Church in Sneedsville, TN. Mike had a dream of starting his own group and one day talked to a life long friend Tony McGee about it. Tony told Mike that if he was serious about doing things right he would love to produce The Gibsons first CD. About 6 months later with the help of Tony and Crossroads Studios, our first project "Living Well" was finished. Our first radio release was one of Mike's songs entitled "Almost Through The Storm" which was picked up by many radio stations and even was featured on Paul Heils Gospel Greats Program. One radio station WDFB in Danville, KY charted "Almost Through The Storm" as their #1 song for six months. In 2008 The Gibsons released their second CD entitled "Give Him Praise" which featured 5 original songs written by Mike Gibson. The Gibsons released the single "If That Wasn't God" written by Billy Fields which lacked a couple of points making Singing News Top 80. The Gibsons currently host the Hancock County Fall Festival Singing the first Saturday in October which is held in historic Hancock County, Tennessee. As we enter our 5th year we are extremely excited to welcome Chandra Greene into our group. Chandra is not only a talented singer, but a gifted musician. We are currently working on our 3rd CD which will be entitled "Footprints". This CD is shaping up to be the best one yet.

The Gibsons are known for their tight mountain harmony with songs that truly reach out and touch the hearts of all their listeners!
